

## DIRECTIONS FOR PRODUCT USE

### Residential:

- **Preventive Maintenance:** Apply 2 ounces per month directly into each drain.
- **Slow drains:** Apply 2 ounces per day directly into drain for 5 consecutive days or until drain flows freely.
- **Septic System:** Flush ½ gallon down the toilet immediately after pumping. Add 4 ounces per month to maintain system.

### Commercial:

- **Preventive Maintenance:** Apply 4 ounces per week directly into each drain.
- **Slow Drains:** Apply 4 ounces per day directly into drain for 5 consecutive days or until drain flows freely.
- **Grease Traps:** Apply 1 gallon per month directly into grease trap.

For best results, apply BioOne® during times of minimal water usage.

Store at room temperature.
